TRAINING FOR PROFESSIONALS & ACADEMICS

The Alliance Française de Normandie offers French as a foreign language courses adapted to all types of professionals: individual courses, small groups, à la carte, face-to-face and online or co-modality.

The face-to-face courses can take place at the company, at the AF de Normandie (Rouen, Le Havre, Cherbourg) or in a hyflex modality (participants have the option of being online or face-to-face depending on their availability) - from 8am to 8.30pm - Monday to Friday.

For each request, an audit and a linguistic assessment are carried out by our expert expert teachers in order to offer training tailored to the needs and objectives of the company's employees and their job. Employees become capable of carrying out the tasks defined in French, in record time!

These Qualiopi-certified courses are eligible for the Compte Personnel de Formation account (CPF). They can also be validated by a Diplôme de Français Professionnel (DFP). This diploma, offered by the Paris Île-de-France Chamber of Commerce and Industry (CCIP), certifies an employee's language skills according to specific sector of activity: Business, International Relations, Tourism, Hospitality and Healthcare. The Alliance Française de Normandie is authorised by the CCIP to organise these exams.

OUR LOW CARBON COMMITMENTS

Because we are aware that our activities, linked to international student mobility and therefore to air travel, have an impact on the environment, **we are now committed to a reduction of 5 to 6% per year in all our carbon emissions in Rouen, Le Havre and Cherbourg**, in line with the international objectives defined in the Paris Agreement (COP21).

Monitoring carbon emissions

The AF of Normandy, since 2022, has been monitoring and controlling the polluting emissions linked to its activities on a daily basis. Its associative model favours sobriety over CO₂ emitting profits.

Selective sorting, transport and energy consumption

Since 2018, we sort and recycle all our waste. We do not use air-conditioning and control our water and gas consumption. Our teams use public transport, bicycles and electric vehicles.

Renaturation

Since 2019, a vast project of liberation from bitumen, re-plantation and enhancement of local natural species has been undertaken, with both educational and environmental objectives. The AF of Normandy participates each year in the UNESCO *Man and the Biosphere Awards*.

Societal responsibility of organisations

Every day, we are committed to having a positive social and environmental impact on the territory and internationally. We offer our members and the general public eco-friendly activities and trips. Our teams and our partnerships bring these values to life. Our business practices are fair and equitable.

TIPS FOR AN ECO-FRIENDLY STAY

Avec vous, l'Alliance Française de Normandie s'engage à limiter ses émissions carbone. Ensemble, contrôlons notre impact sur l'environnement !

1 Practising eco-mobility

2 Choosing your packagings

3 Eating according to the season

6 Eco-responsible consumption

5 Sorting your waste

4 Participate in eco-activities (gardening, clean walk, etc.)

7 Buying usefull and second hand

8 Using the right equipment

DID YOU KNOW?

Extending your stay and your course volume can indeed limit the impact by more than 10%, with an average of about 5kg less CO₂ emissions per hour of class depending on the total length of your stay and your country of origin.
